BUILD WITH FLOWAGENT · REVIEW WITH OVERFLOW

Power Automate Skills Index

Read each automation scope horizontally from discovery and build through review and operations.

Rows = product surfaces · Columns = Power Automate delivery stages: DISCOVER → BUILD → DEBUG → REVIEW → OPERATE

A skill's **Purpose** badge is its *global lifecycle intent* (Build · Author · Review · Deploy · Operate · Govern · Migrate) and may differ from the delivery column it sits in.

Microsoft-published · 141 | MIT licensed · 140 | Catalog refreshed on 10 Nov 2026

114 skills | 24 MCP | 5 reference

Delivery boundary	DISCOVER	BUILD	DEBUG	REVIEW	OPERATE
Cloud Flows Authoring and solution release	**Setup ↗** MCP Verify Node, Azure CLI login, environment, and FlowAgent MCP. Power Platform Skills — MCP **Browse Flows ↗** MCP Browse environments, flows, connections, and runs. Power Platform Skills — MCP	**Create Flow ↗** MCP Guided creation with explicit choices and connection mapping. Power Platform Skills — MCP **Build Flow ↗** MCP Generate a complete cloud flow through FlowAgent. Power Platform Skills — MCP **expression help ↗** MCP Validate Workflow Definition Language expressions. Power Platform Skills — MCP	—	**PowerCAT Overflow ↗** REVIEW Review every cloud flow in a solution against coding guidance. Power CAT Skills — Skill **Findings viewer ↗** REVIEW Prioritize findings by pillar, flow, and remediation. Power CAT Skills — Skill	**Manage Flows ↗** OPERATE Publish, disable, copy, inventory, test, and batch operations. Power Platform Skills — Skill
Desktop Flows Desktop automation assets	**Manage Desktop Flows ↗** MCP List and run desktop-flow assets. Power Platform Skills — MCP	—	—	—	—
Runs & Diagnostics Failure investigation and recovery	—	—	**Debug Flow ↗** MCP Interactively inspect a failed run and its actions. Power Platform Skills — MCP **Diagnose Flow ↗** MCP Diagnose failed runs, loops, connections, and expressions. Power Platform Skills — MCP **resubmit / cancel ↗** OPERATE Control problematic or recoverable runs. Power Platform Skills — Skill	—	—
Connections & Platform Environment, connection, and service health	**Route Environments ↗** MCP Resolve the correct environment before any lifecycle action. Power Platform Skills — MCP	**connection lifecycle ↗** MCP Discover, share, fix, and map connections. Power Platform Skills — MCP	—	—	**Admin Digest ↗** OPERATE Prioritize Message Center, health, issues, and deprecations. Power CAT Skills — Skill

Build → Review pairings

Development	FlowAgent MCP: build-flow / create-flow	→ PowerCAT Overflow	**Run failure**	debug-flow	→ diagnose-flow
Release	preflight + publish	→ Overflow findings + test run			

Daily decision rule

Build and operate with FlowAgent. Export the solution and run PowerCAT Overflow before production release. For a failed run, debug first; diagnose when the cause crosses actions, loops, or connections.

Portability: most pure Agent Skills are broadly installable on compatible hosts. Adapt host-specific tools, paths, plugins, permissions and MCP configuration.
