MCP Server Hub

# MCP & Tooling

Model Context Protocol servers and the live tools they expose to AI agents — distinct from packaged Skills.

Microsoft-published · 141 | MIT licensed · 140 | Catalog refreshed on 27 Oct 2026

114 skills | 24 MCP | 5 reference

**Skill** Skill

A packaged, reusable capability — instructions, scripts & schemas telling an agent *how* to do a task deterministically. Learn more →

**MCP** MCP Tool MCP Server

A live connection — a server exposes runtime *tools & data* so the agent can *act* on real environments. Learn more →

## MCP Servers

3 servers · Open a capability for source details and supported usage.

### Canvas MCP

Server

Canvas authoring capabilities and related skills.

6 related capabilities · source identifies actual tools

| | | |
|---|---|---|
| Canvas App | Plan and coauthor Canvas Apps through the live authoring service. | Power Platform Skills · mcp-capability · Mcp |
| Add Data Source | Discover connectors and live data-source schemas. | Power Platform Skills · mcp-capability · Mcp |
| compile_canvas | Validate Canvas YAML before deployment. | Power Platform Skills · mcp-capability · Mcp |
| describe / list | Discover controls, APIs, data sources, and schema. | Power Platform Skills · mcp-capability · Mcp |
| compile / sync | Validate YAML and synchronize app state. | Power Platform Skills · mcp-capability · Mcp |
| Author | Create and edit cloud flows. | Power Platform Skills · mcp-capability · Mcp |

Maker · plugin + Studio coauthoring — Maker / developer (no tenant admin)

How to enable

### FlowAgent MCP

Server

Cloud-flow capabilities and supporting skills.

10 related capabilities · source identifies actual tools

| | | |
|---|---|---|
| Build Flow | Generate a complete cloud flow through FlowAgent. | Power Platform Skills · mcp-capability · Mcp |
| Browse Flows | Browse environments, flows, connections, and runs. | Power Platform Skills · mcp-capability · Mcp |
| Setup | Verify Node, Azure CLI login, environment, and FlowAgent MCP. | Power Platform Skills · mcp-capability · Mcp |
| Manage Desktop Flows | List and run desktop-flow assets. | Power Platform Skills · mcp-capability · Mcp |
| Diagnose Flow | Diagnose failed runs, loops, connections, and expressions. | Power Platform Skills · mcp-capability · Mcp |
| Create Flow | Guided creation with explicit choices and connection mapping. | Power Platform Skills · mcp-capability · Mcp |
| Debug Flow | Interactively inspect a failed run and its actions. | Power Platform Skills · mcp-capability · Mcp |
| expression help | Validate Workflow Definition Language expressions. | Power Platform Skills · mcp-capability · Mcp |
| Route Environments | Resolve the correct environment before any lifecycle action. | Power Platform Skills · mcp-capability · Mcp |
| connection lifecycle | Discover, share, fix, and map connections. | Power Platform Skills · mcp-capability · Mcp |

Local · plugin + az login (offline) — Maker / developer (no tenant admin)

How to enable

### Dataverse MCP

Server

Dataverse connection skills and documented data capabilities.

5 related capabilities · source identifies actual tools

| | | |
|---|---|---|
| Dv Connect | Install tools, authenticate, and register the Dataverse MCP server. | Dataverse Skills · mcp-capability · Mcp |
| Dv Query | Read, filter, page, aggregate, and load records into pandas. | Dataverse Skills · mcp-capability · Mcp |
| connect · Dataverse | Authenticate and register an environment server. | Dataverse Skills · mcp-capability · Mcp |
| query / data | Read and change Dataverse records. | Dataverse Skills · mcp-capability · Mcp |
| Guidance · Dataverse tool selection | When to use MCP, the Dataverse CLI, the Python SDK or PAC for Dataverse work. | Dataverse Skills · reference · Operate |

Tenant admin · PPAC toggle — Power Platform admin

How to enable

## Host Duties & Protocol

Operations, guidance & cross-host portability

### MCP Host Responsibilities

Documented operations and host-related capabilities.

| | | |
|---|---|---|
| connect · Canvas | Bind the agent to a live coauthoring session. | Power Platform Skills · mcp-capability · Mcp |
| Operate | Publish, copy, route, and manage runs. | Power Platform Skills · mcp-capability · Mcp |
| Diagnose | Inspect actions, loops, expressions, and connections. | Power Platform Skills · mcp-capability · Mcp |
| host protocol | Run widgets in MCP Apps-compatible hosts. | Power Platform Skills · mcp-capability · Mcp |

### Portability & MCP Apps

Availability depends on the host, server configuration, authentication and permissions.

| | | |
|---|---|---|
| MCP Apps | Visualize structured tool output in compatible hosts. | Power Platform Skills · skill · Author |
| Generate Codeful MCP Tool | Generate a self-contained JavaScript MCP tool runtime and matching registration metadata. | Power Platform Skills · skill · Build |

### Setup & host guidance

Authentication, allowlisting, server launch and tenant access. Guidance, not a runnable skill or tool.

| | |
|---|---|
| Guidance · Power Platform Skills: setup & host guide | How to install, run, secure and govern the skills across supported hosts. |
