

Dataverse Skills Index

Read each Dataverse boundary horizontally without mixing schema, records, release, or administration.

Rows = product surfaces · Columns = Dataverse delivery stages: CONNECT / ROUTE → DESIGN → READ / WRITE → SECURE / VALIDATE → DEPLOY / OPERATE

A skill's **Purpose** badge is its *global lifecycle intent* (Build · Author · Review · Deploy · Operate · Govern · Migrate) and may differ from the delivery column it sits in.

Delivery boundary	CONNECT / ROUTE	DESIGN	READ / WRITE	SECURE / VALIDATE	DEPLOY / OPERATE
Schema & Metadata Tables, relationships, forms, and views	Dv Overview ↗ Load foundational context, safety rules, and tool-capability guidance; specialist skills self-route by intent. Dataverse Skills ⌘ Skill AUTHOR	Dv Metadata ↗ Design tables, columns, relationships, forms, and views. Dataverse Skills ⌘ Skill BUILD Setup Datamodel ↗ Design Dataverse tables and relationships. Power Platform Skills ⌘ Skill BUILD	Dataverse WebAPI Query ↗ Author OData and FetchXML across apps, flows, and APIs. Power CAT Skills ⌘ Skill AUTHOR	—	—
Application Data Queries, CRUD, imports, and sample records	Dv Connect ↗ Install tools, authenticate, and register the Dataverse MCP server. Dataverse Skills ↗ MCP MCP	—	Dv Query ↗ Read, filter, page, aggregate, and load records into pandas. Dataverse Skills ↗ MCP MCP Dv Data ↗ CRUD, CSV import, multi-table loads, upsert, and sample data. Dataverse Skills ⌘ Skill OPERATE Add Sample Data ↗ Generate contextual sample records for app development. Power Platform Skills ⌘ Skill BUILD	—	—
ALM & Release Solution architecture and promotion	—	Plan ALM ↗ Choose solution boundaries, pipelines, and deployment topology. Power Platform Skills ⌘ Skill GOVERN	—	—	Dv Solution ↗ Create, export, import, promote, and validate solutions. Dataverse Skills ⌘ Skill DEPLOY ERP X++ ↗ Scaffold, build, package, deploy, synchronize, and verify Finance and Operations X++ customizations. Dataverse Skills ⌘ Skill DEPLOY
Administration & Security Access model and environment operations	—	—	—	Dv Security ↗ Roles, users, application users, business units, and access. Dataverse Skills ⌘ Skill GOVERN	Dv Admin ↗ Retention, archival, settings, audit, recycle bin, and bulk delete. Dataverse Skills ⌘ Skill OPERATE
Build → Review pairings Business question dv-query → dataverse-webapi-query when code needs the query App data model setup-datamodel → dv-metadata for precise implementation			Daily decision rule Begin with dv-overview or plain language. Query and data operations are separate from metadata changes. Use solutions for transport; never treat direct environment edits as ALM. Portability: most pure Agent Skills are broadly installable on compatible hosts. Adapt host-specific tools, paths, plugins, permissions and MCP configuration.		
Release dv-solution → security + validation before promotion
